POLICIES AND PROCEDURES

(Equity & Derivatives Segment)

(1) Policy for Penny Stock

Penny stocks are stocks that trade at a relatively low price and market capitalization. These type of stocks are generally considered to be highly speculative and high risk because of their lack of liquidity, large bid-ask spreads, small capitalization and limited following and disclosure. Depending on the market condition and Risk Management System (RMS) policy of the company the RMS department reserves the right to refuse to provide the limit in penny stocks and losses, if any, on account of such refusal shall be borne by client only.

(2) Setting up client's exposure limits

The stock broker may from time to time impose and vary limits on the orders that the client can place through the stock broker's trading system (including exposure limits, turnover limits, limits as to the number, value and/or kind of securities in respect of which orders can be placed etc.). The client is aware and agrees that the stock broker may need to vary or reduce the limits or impose new limits urgently on the basis of the stock broker's risk perception and other factors considered relevant by the stock broker including but not limited to limits on account of exchange / SEBI directions/ limits (such as broker level / market level limits in security specific / volume specific exposures etc.), and the stock broker may be unable to inform the client of such variation, reduction or imposition in advance. The client agrees that the stock broker shall not be responsible for such variation, reduction or imposition or the client's inability to route any order through the stock broker's trading system on account of any such variation, reduction or imposition of limits. The client further agrees that the stock broker may at any time, at its sole discretion and without prior notice, prohibit or restrict the client's ability to place orders or trade in securities through the stock broker, or it may subject any order placed by the client to a review before its entry into the trading systems any may refuse to execute / allow execution of orders due to but not limited to the reason of lack of margin / securities or the order being outside the limits set by stock broker / exchange / SEBI and any other reasons which the stock broker may deem appropriate in the circumstances. The client agrees that the losses, if any on account of such refusal or due to delay caused by such review, shall be borne exclusively by the client alone.

We have margin based RMS system. Total deposits of the clients are uploaded in the system and client may take exposure on the basis of margin applicable for respective security as per VAR based margining system of the stock exchange and/or margin defined by RMS based on their risk perception.

In case of exposure taken on the basis of shares margin the payment is required to be made before the exchange pay in date otherwise it will be liable to square off after the pay in time or any time due to shortage of margin.
